

## **HealthSouth and Martin Memorial Health Systems Announce Plans to Build Inpatient Rehabilitation Hospital in Martin County, Florida**

PR Newswire

STUART, Fla. and BIRMINGHAM, Ala.

STUART, Fla. and BIRMINGHAM, Ala., Oct. 5, 2011 /PRNewswire/ -- HealthSouth Corporation (NYSE: HLS) today announced that final certificate of need approval has been received from the state of Florida for a new comprehensive medical rehabilitation hospital in Martin County. The 34-bed hospital will be a partnership with Martin Memorial Health Systems and will provide comprehensive physical rehabilitation to patients who have experienced stroke, trauma, brain and orthopedic injuries or other major illness or injuries.

"This state-of-the-art hospital will provide a new and different type of service in Martin County which will further augment the already strong continuum of healthcare currently available to citizens in the area," said Linda Wilder, president of HealthSouth's southeast region. "We are delighted to partner with such a well-respected provider as Martin Memorial Health Systems in this initiative. Through the combined efforts of our organizations we will establish a high-quality rehabilitation hospital which will improve access to comprehensive medical rehabilitation services."

Construction on the 48,400-square-foot hospital is expected to begin in the second quarter of 2012. The freestanding hospital will be built on the Martin Memorial Hospital South campus and will include 34 all-private rooms, a spacious, on-site therapy gym and cutting-edge rehabilitation technologies. The development of the new rehabilitation hospital represents a significant investment in the community and is expected to generate approximately 80 new, full-time jobs.

With an estimated 27 percent of Martin County's population and nearly 20 percent of Port St. Lucie's population over the age of 65, residents will benefit from direct access to the services offered at a comprehensive medical rehabilitation hospital. Currently, there are no rehabilitation beds in Martin County, with the nearest facilities located in Palm Beach, St. Lucie and Indian River Counties. This lack of access creates a significant burden on patients and their families.

"Martin Memorial's partnership with HealthSouth will provide a tremendous benefit to residents of our community," said Mark E. Robitaille, president and chief executive officer of Martin Memorial. "Having the rehabilitation hospital on the same campus as Martin Memorial Hospital South will offer patients much-needed access to comprehensive healthcare services close to home."

HealthSouth currently operates nine inpatient rehabilitation hospitals in Florida. Martin Memorial has been named a Thomson Reuters 100 Top Hospitals® winner six times.

"We have been privileged to serve patients in Florida for more than 25 years at our other locations throughout the state and look forward to providing HealthSouth's quality care closer to home for Martin County residents," said Wilder. "This new hospital will ensure that residents have reasonable and appropriate access to the latest rehabilitative treatment and technology in a hospital setting."

### **About Martin Memorial Health Systems**

Martin Memorial Health Systems is a not-for-profit, community-based health care organization that has served the region for more than 70 years. It offers a continuum of care including preventive, primary and acute hospital care, as well as cancer and cardiac care, wellness and rehabilitation services. Its approximately 2,900 Associates, 375 affiliated physicians and 900 volunteers provide care at 12 different locations serving Martin and St. Lucie counties. Martin Memorial is a six-time winner of the Thomson Reuters 100 Top Hospitals Award, was named a Thomson Reuters 50 Top Cardiovascular Hospitals award winner in 2010, and received designation as a National Employer of Choice designee for 2009 and 2010-11.
