

HealthSouth Reports Solid Results for First Quarter 2014

Revenue Growth of 3.2% and Discharge Growth of 2.4%

Cash Provided by Operating Activities of \$107.1 million

Adjusted EBITDA Increased by 3.4%

PR Newswire

BIRMINGHAM, Ala.

BIRMINGHAM, Ala., April 28, 2014 /PRNewswire/ -- HealthSouth Corporation (NYSE: HLS), the nation's largest owner and operator of inpatient rehabilitation hospitals, today reported its results of operations for the first quarter ended March 31, 2014.

"HealthSouth's first quarter results provide a very good start to the year," said Jay Grinney, HealthSouth President and Chief Executive Officer. "Despite disruption to operations in many of our markets as a result of unprecedeted winter storms and the negative effect of sequestration, we achieved growth in discharges, revenues, and Adjusted EBITDA. Discharge growth in April is on track, and we expect our full-year Adjusted EBITDA and earnings per share to be at the high end of their respective guidance ranges."

First Quarter Results

- Consolidated net operating revenues were \$591.2 million for the first quarter of 2014 compared to \$572.6 million for the first quarter of 2013, or an increase of 3.2%. Discharge growth of 2.4% was negatively impacted by approximately 100 basis points due to winter storms, all of which occurred in same-store markets where discharge growth was 0.4%. Net patient revenue per discharge, which increased by 1.5%, was negatively impacted in the first quarter of 2014 by approximately \$9 million for sequestration. Excluding the impact of sequestration, net patient revenue per discharge would have increased by 3.2%.
- Income from continuing operations attributable to HealthSouth for the first quarter of 2014 was \$0.48 per diluted share compared to \$0.48 per basic share for the same period of 2013. Earnings per share for the first quarter of 2014 reflected the impact of sequestration and lower volumes resulting from the winter storms, as well as higher depreciation and amortization related to recent capital expenditures.
- Cash flows provided by operating activities were \$107.1 million for the three months ended March 31, 2014 compared to \$121.4 million for the same period of 2013, reflective of anticipated increases in working capital during the first quarter of 2014. Specifically, payroll tax withholdings related to the vesting of employee restricted stock awards and timing differences in accounts payable caused the increase in working capital.
- Adjusted EBITDA (see attached supplemental information) for the first quarter of 2014 was \$144.1 million compared to \$139.3 million for the same period of 2013, or an increase of 3.4%. This improvement was due primarily to continued revenue growth and disciplined expense management offset by the negative impacts of approximately \$8 million due to sequestration, as well as the lower volumes resulting from winter storms. Adjusted EBITDA for the first quarter of 2014 included approximately \$2 million from the sale of two investments.
- Adjusted free cash flow (see attached supplemental information) for the first quarter of 2014 was \$65.1 million compared to \$85.7 million for the same period of 2013. Adjusted free cash flow in the first quarter of 2014 benefited from higher Adjusted EBITDA offset by increases in working capital, as discussed above, and maintenance capital expenditures, including approximately \$12 million of equipment purchases that were invoiced in 2013 and paid in early 2014.

"Our significant free cash flow continued to provide flexibility to return capital to our shareholders, and we did so in the first quarter via the payment of the \$0.18 per share quarterly cash dividend on our common stock, as well as by repurchasing 808,880 common shares under our \$250 million share buyback authorization," said Doug Coltharp, Executive Vice President and Chief Financial Officer of HealthSouth.

2014 Guidance

In the Company's Current Report on Form 8-K dated February 19, 2014 and related earnings release, the Company provided 2014 guidance which consisted of Adjusted EBITDA in the range of \$555 million to \$565 million and income from continuing operations attributable to HealthSouth per diluted share in the range of \$1.86 to \$1.91. Based on its results for the first quarter of 2014, the Company expects its 2014 full-year Adjusted EBITDA and earnings per share to be at the high end of these guidance ranges.

HealthSouth Corporation and Subsidiaries Forward-Looking Statements

Statements contained in this press release which are not historical facts, such as the financial guidance, are forward-looking statements. In addition, HealthSouth, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. All such estimates, projections, and forward-looking information speak only as of the date hereof, and HealthSouth undertakes no duty to publicly update or revise such forward-looking information, whether as a result of new information, future events, or otherwise. Such forward-looking statements are necessarily estimates based upon current information, involve a number of risks and uncertainties, and relate to, among other things, future events, HealthSouth's plan to repurchase its debt or equity securities, dividend strategies, effective income tax rates, HealthSouth's business strategy, its financial plans, its future financial performance, its projected business results or model, its projected capital expenditures, or its leverage ratio. Actual events or results may differ materially from those anticipated in these forward-looking statements as a result of a variety of factors. While it is impossible to identify all such factors, factors which could cause actual events or results to differ materially from those estimated by HealthSouth include, but are not limited to, the price of HealthSouth's common or preferred stock as it affects the Company's willingness and ability to repurchase shares and the financial and accounting effects of any repurchases; any adverse outcome of various lawsuits, claims, and legal or regulatory proceedings involving HealthSouth, including its pending DOJ and HHS-OIG investigations; potential disruptions, breaches, or other incidents affecting the proper operation, availability, or security of HealthSouth's information systems; significant changes in HealthSouth's management team; HealthSouth's ability to successfully complete and integrate de novo developments, acquisitions, investments, and joint ventures consistent with its growth strategy; changes, delays in (including in connection with resolution of Medicare payment reviews or appeals), or suspension of reimbursement for HealthSouth's services by governmental or private payors; changes in the regulation of the healthcare industry at either or both of the federal and state levels, including as part of national healthcare reform and deficit reduction; competitive pressures in the healthcare industry and HealthSouth's response thereto; HealthSouth's ability to obtain and retain favorable arrangements with third-party payors; HealthSouth's ability to attract and retain nurses, therapists, and other healthcare professionals in a highly competitive environment with often severe staffing shortages and the impact on HealthSouth's labor expenses from potential union activity and staffing shortages; general conditions in the economy and capital markets; the increase in the costs of defending and insuring against alleged professional liability claims and

HealthSouth's ability to predict the estimated costs related to such claims; and other factors which may be identified from time to time in HealthSouth's SEC filings and other public announcements, including HealthSouth's Form 10-K for the year ended December 31, 2013 and Form 10-Q for the quarter ended March 31, 2014, when filed.
