

Encompass Health makes investment in Medalogix

BIRMINGHAM, Ala., June 24, 2019 /PRNewswire/ -- Encompass Health Corp. (NYSE: EHC), a leader in integrated healthcare services, today announced it has made a minority equity investment in Medalogix, a leader in predictive analytics and data science for home health and hospice.

Medalogix is assisting Encompass Health in preparing for the impending changes to the Patient-Driven Groupings Model, a new home health payment model for Medicare patients expected to take effect Jan. 1, 2020.

"Our investment in Medalogix underscores our excitement for working with an innovative, predictive analytics company that shares our standards and dedication to doing what's best for patients. Medalogix is helping us prepare for an array of value-based payment models," said Luke James, chief strategy officer at Encompass Health - Home Health & Hospice.

In 2016, Encompass Health and Medalogix entered into a co-development arrangement focused on the development of Medalogix Care, an analytical tool that provides evidence-based and patient-specific recommended care plans focused on improving patient outcomes. In addition to providing clinical decision support for the plan of care, the Medalogix Care recommendation provides a basis for inter-disciplinary collaboration and ongoing cross-functional case management throughout the episode of care.

"Our core focus right now is helping our clients transition to PDGM. Our products, especially Medalogix Care, provide a playbook to manage resources in a way that is sustainable through this industry shift while focusing on what is right for each patient," said Elliott Wood, president and chief executive officer of Medalogix.

"Leveraging Medalogix in a meaningful way requires the home health agency to have great leadership and a culture that can sustain transformation with technology. Encompass Health has consistently demonstrated an ability to execute on these types of transformational initiatives, and we are thrilled to enhance our relationship with Encompass Health and make a difference together in the industry."

Encompass Health was the first organization to adopt Medalogix Care, which helps to improve patient outcomes by developing an optimal care plan.
